SERVICES

RANK	STANDARDS CITED	NUMBER
5	71-3(a),(b) This section contains rules applying to all emergency-action and fire-prevention plans required by particular HIOSH standards.	11
6	60-2(a),(b) Safe work places and practices were not provided. Standards for an Occupational Safety and Health Program were not met.	10
7	1910.147(c) When an employee was exposed to contact with parts of fixed electric equipment or circuits which have been deenergized, the circuits energizing the parts were not locked out or tagged out according to the requirements of this section.	9
7	1910.1200(e) Employers did not develop and implement a written hazard communication program for their work places.	9
8	72-3 This section applies to guarding floor and wall openings and requirements for the protection of floor openings.	8
8	1910.305(g) Flexible cords were used as a substitute for fixed wiring where not permitted. Flexible cords were not connected to devices and fittings so that strain relief was provided, which would have prevented pull from being transmitted to joints.	8
